

## WILSON CONGRESS FOR FAILURE TO ACT

Former Secretary Fisher  
Makes Speech on Conser-  
vation in Chicago.

## WILSON HINT TO WILSON

Wishes New Administration  
Will Open Nation's Store-  
houses in Right Way.

CHICAGO, March 8.—"The problem of conservation and the trusts may seem more important and more pressing, more vital than these to the future of this country is the solution of the fundamental economic and political issues involved in the development and control of our natural resources and especially of our sources of mechanical power," said L. Fisher, former secretary of the Interior, in an address before the Commercial club tonight. "We have lost effective public control of many of these sources, coal, oil and water power. With those that remain must not repeat the errors of the past. Under wise legislation, if enacted, the public interests can yet be properly conserved and protected."

## James Lawmakers.

The most important work of the geological survey has become the classification of public lands so that they may be opened for development and under appropriate legislation. It is the almost total lack of such legislation that presents the real difficulty in the way of constructive conservation of the natural resources of the nation. The responsibility for this rests squarely upon congress, not upon the executive officials or the conservationists. The necessity of remedial legislation has been urged in congress repeatedly from official and unofficial sources, but the opposition of radicals and reactionaries has thus far prevented action. The lands can be withdrawn from public domain, but when classified they are not to be restored to entry under any law which will promote development at the same time protect the public interest. This point cannot be too strongly emphasized.

## Is Inadequate.

What is it important to have the public understand is that such legislation is not written in the statute books. The protection of the public rests depends almost entirely upon the executive officials, established by the executive heads of the department of the interior and of agriculture with respect to the public domain. If these regions are not fully encouraged, developed and protected the investor, if he does not adequately protect the public interests, it is because of inadequate laws and in spite of repeated suggestions of remedial legislation.

## Plan for Action.

It is time that congress shall be forced to act so that the storehouses of the nation may be opened and the nation in the right way. The new administration has here its opportunity to fulfill its obligation. I am hopeful that it will seize the one and meet the other.

## Conclusion, Mr. Fisher referred to

extended conferences in Hawaii, and also to the Hatch bill conference, etc., saying "they are each and all due to the conviction that the way to get at the facts and make progress is to discuss differences in an open meeting with open mind."

## English Bureau of Brains is Created

Special Cable to The Tribune.  
LONDON, March 8.—A bureau of brains, as it is formally styled, a bureau of business, is now formed to conduct a campaign in the name of a more bracing and vigorous action on the part of our educated young men.

## ACT NUMBER OF CASUALTIES UNKNOWN

BALTIMORE, Md., March 8.—Efforts to determine the exact number of persons killed and injured as a result of the explosion of dynamite yesterday in the hold of the British tramp steamer Alumina, and to ascertain the cause of the explosion, were only partially successful. Twelve bodies have been identified, and the names of the others are being sought. The bodies of the forty-three known injured men are being treated at the hospital, and it is thought that at least ten of them will survive. The loss of the ship is estimated at \$100,000 and \$500,000.

## MALAYA MINING COMPANY BANKRUPT

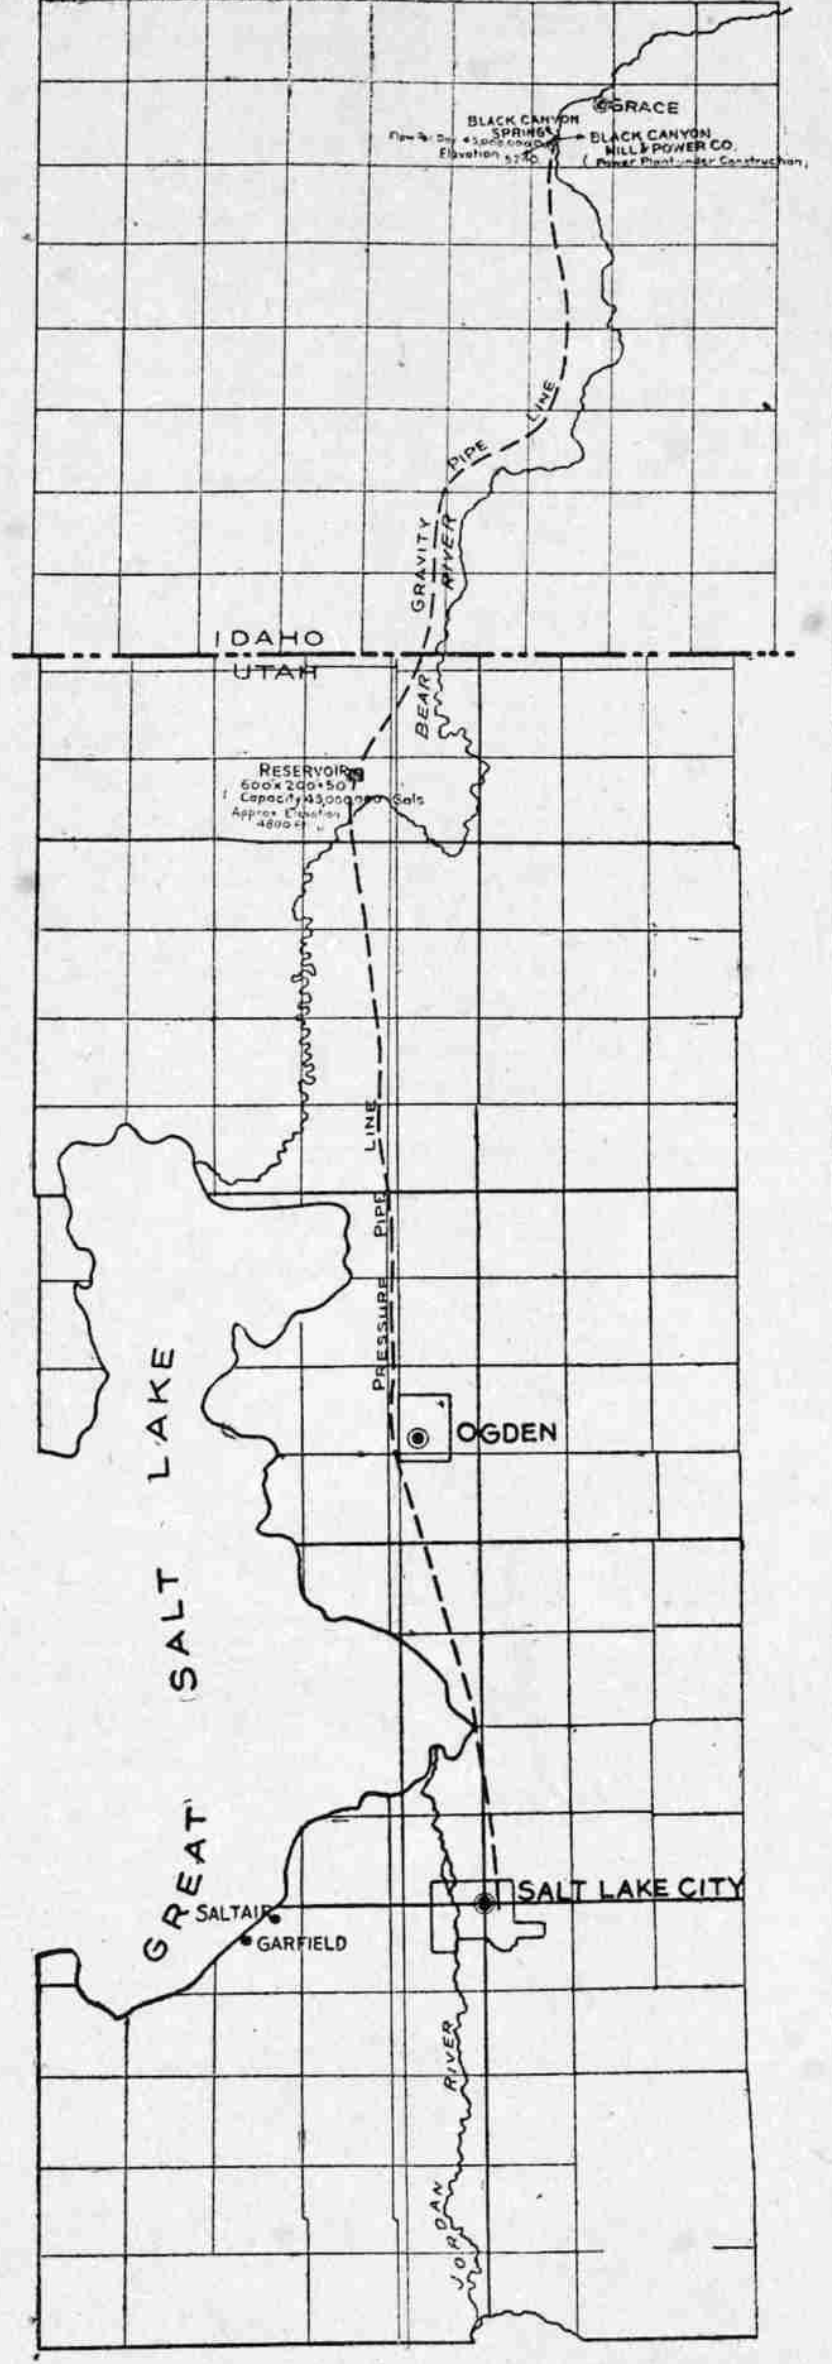

NEW YORK, March 8.—The Hima Mining company, a Nevada corporation with mines at Tulsa, Cal., and Milne Bay, today filed a petition in voluntary bankruptcy in the federal court here, declared in the petition to be of unknown value, include the mining properties and rough and cut semi-precious stones.

## LOSS \$150,000.

NEW ORLEANS, La., March 8.—Fire of unknown origin on Dryden street between Tergel and Esplanade streets today caused a loss of \$150,000.

## Would Pipe Spring Water From Idaho to Salt Lake

Map showing proposed pipe line from Black Canyon springs, near Grace, Idaho, to this city, which would increase water supply of Salt Lake City about three times.

## Plans for Immense Pipe Line From Idaho Submitted to City.

A PLAN to build a pipe line from Black Canyon Springs in Idaho to Salt Lake City, capable of carrying 45,000,000 gallons daily flow, has been submitted to Commissioner W. H. Korns of the city water department by F. O. Nelson of Grace, Idaho. Mr. Korns is so impressed with the idea that he will submit it to the city commission Monday night. The accompanying map outlines the plan simply. Mr. Nelson, who owns water rights in the Black Canyon Springs, would sell them to the city. He has figured out that for \$5,000,000 the city could buy his rights, construct the pipe line, 123 miles in extent, build a great reservoir and improve the distributing system to care for the increased supply. The water department officials have made no estimate on the plan as yet, though it is likely that the city engineer will be asked to go over the scheme roughly.

## Matter of Near Future.

"I realize that it is hardly possible to even dream of putting through the project at once," Commissioner Korns said, "but from what I have been able to learn of Mr. Nelson's idea I believe it would be a good thing to hold in mind among the various other projects contemplated by the city."

Commissioner Korns and every other city official realizes that water is the most vital necessity of the city at present and for the immediate future. Talk of a bond issue has been rampant for some time and the city commission has gone on record as favoring an issue of \$800,000 at once, which is the limit to which the city may bond itself under the present law until present bonds have been retired. Extension of the limit so as to allow a bond issue of several millions has been discussed but nothing has been done towards obtaining the necessary legislation as yet. As shown in the map the plan con-

## OUR DISAGREES IN THE CASE OF DARROW

Chicago Attorney Will Be  
Placed on Trial Again on  
Last Day of March.

By International News Service.  
LOS ANGELES, March 8.—Hopeslessly deadlocked, with the vote standing eight to four for conviction, the jury in the case of Clarence Darrow, tried on the charge of bribing Robert Bain, a juror in the McNamara case, was discharged shortly before midnight today, after nearly forty hours' deliberation.

Darrow immediately asked for an early retrial, and upon his insistence Judge Conley fixed the date of the second trial for March 31.

"If Darrow is anxious to have another trial we can certainly accommodate him," was the statement of District Attorney Fredericks, although Assistant District Attorney Ford, who conducted the prosecution, says he will have nothing to do with another trial.

The intimation that the case may be dismissed by the district attorney and an attempt made to disbar Darrow was made by Fredericks this afternoon. He declared that Darrow, when on the witness stand, made admissions of sufficient gravity to warrant his disbarment.

Darrow received the news of the disagreement of the jury with great disappointment. "As far as the action of the jury is concerned, I have nothing to say," he stated. "I have asked for an immediate retrial and I want to have another trial as soon as I can get it. I will stay here and fight it to a finish. I will ask for no dismissal."

"After a certain amount of prosecution trials become persecutions. Of course the district attorney has a right to try the case again if he wants to, but it seems to me that one acquittal and a disagreement on the same testimony ought to be sufficient to warrant a dismissal."

The four jurors who stood out for acquittal stated that they did not question but that a juror was bribed, but they believed that there was a sufficient possibility of another interested party supplying the money to Detective Bert Franklin to give rise to a reasonable doubt.

## FRENCH YOUTHS RUSH INTO ARMY

Every Class of Society Ready to  
Do Their Part in Present  
National Crisis.

PARIS, March 8.—The willingness of the young men of France to join the army in what is considered a national crisis was indicated this week by the thousands of volunteers who applied at the recruiting offices in every part of the country to serve a term of three years.

Eugene Etienne, the minister of war, commenting on this fact, said today that the offers came from every class of society. Every pupil in the two upper classes of the high school at Avignon sent a letter to M. Etienne asserting readiness to stay in the ranks for three years. The recruits at Pontoise cheered loudly when the prefect of the department referred during a speech to the three years' service. Deputy Jacquier today brought forward a proposition in the chamber of deputies to raise the \$100,000,000 asked for by the government for additions to the French armaments by imposing an extra tax on incomes. Those above \$5000, he said, should be asked to contribute, where there were children in the family. Where there were children, he proposed that the tax should be decreased in proportion to their number.

## CRUSADE DIRECTED AGAINST GOVERNOR

NEW YORK, March 8.—Waiters, elevator men, telephone operators, bank messengers, telegraphers and clerks who in the financial district are engaged in a crusade, the like of which Wall street has never seen. It is directed against Governor Sulzer's bill affecting the stock exchange in particular the bill to raise from \$2 to \$4 the state tax on the transfer of ownership of each one hundred shares of stock.

## NEBRASKA FARMER VICTIM OF FAKERS

MIAMI, Fla., March 8.—Warrants were issued here today for a man known as J. M. Bateman, said to be from Atlanta and referred to as the brains of the old J. C. Mabray gang which for years operated fake pool rooms in Omaha, Kansas City and other cities. The warrant was issued on complaint of Frank Rotherle of Kilgore, Neb., who charges he was swindled out of \$9000 by Bateman and his "operatives" by fake horse races.

According to Rotherle, Bateman and his associate induced him to bet on races in alleged poolrooms here. Finally, he declared, he was led to bet \$9000 on a race, paying the money in Atlanta with the intention of making a "killing" through the so-called poolrooms here.

## NUMBER OF SUICIDES MOUNTS IN ENGLAND

Special Cable to The Tribune.  
LONDON, March 8.—The mounting proportion of suicides is a striking illustration of the growing intensity of human struggles in England and Wales, and is clearly shown in the table for fifty-five years, which is presented in the blue book on criminal statistics just issued. In every 100,000 of the population there are four or more suicides than during the '50s.

In the five years 1887-91 the number of persons who committed suicide was the proportion of 6.65 among 100,000 of the population. During the period between 1877 and 1881 it was above 7. In the early '80s the proportion passed 8, and in the five years 1897-1901, exceeded 9. From 1902 to the end of 1911 the yearly average was above 10. The last yearly return gives 2.85 per 100,000.

## SECRETARY WILSON OUTLINES POLICY

Intends to Represent Gov-  
ernment in Discharging  
Duties of Office.

WASHINGTON, March 8.—William B. Wilson, the "baby member" of the cabinet, and head of the new department of labor, today summed up in a few words the policy that will govern him in the discharge of his duties. While apparently he resented the report that he would be a special pleader in the cause of labor, he acknowledged to entertaining strong convictions on the labor question.

"It would not be accurate to say that I represent organized labor in performing my official duty," he said. "I shall represent the government. Of course, however, the point of view has much to do with such matters."

Probably more interest is being taken in the program of the department of labor than in any other executive department of the government. Appointed virtually at the instigation of Samuel Gompers, president of the American Federation of Labor, Mr. Wilson is feared by those opposed to union labor methods, would decide all questions from the viewpoint of labor, and that the American Federation of Labor would be the dominating spirit in the new department.

Friends of Mr. Wilson declare their confidence in his judgment and fairness. They point to his record in the house on labor legislation and insist it always was marked by tolerance and sound sense.

## ROMAN PONTIFF IS INDIPOSED

Has Slight Attack of Grippe and  
Catarrh; Audiences Suspended  
for the Present.

ROME, March 8.—The vatican announces that the indisposition from which Pope Pius is suffering is insignificant. The Osservatore Romano, the vatican organ, publishes the following official announcement:

"The holy father being indisposed from a slight attack of grippe and catarrh, the usual audiences have been suspended."

The pope has been somewhat depressed since the death of his sister, about a month ago, and tried to distract his mind from his sorrow by extraordinary activity. A few days since he began to show the effects of over-exertion, but continued to give audiences.

As this condition had become more pronounced today, Dr. Marchiafava, the pope's physician, ordered an immediate suspension of all audiences. The examining physician also detected symptoms of mild bronchitis, although there was no rise of temperature.

The pope is not confined to bed but Dr. Marchiafava has advised complete rest and early retirement at night.

Although it is expected that his holiness will be able to resume audiences within a week, it is feared that his indisposition will interfere, to some extent, with the Easter celebrations, at which time it is customary to admit a certain number of children to receive the first communion from the hands of the pontiff.

## ARTHUR NEWTON FACES PRISON

Lawyer Who Defended Dr. Crippen  
is Charged With Con-  
spiracy to Defraud.

LONDON, March 8.—Arthur Newton, the lawyer who came into the limelight during the trial of Dr. Crippen for murder in connection with which he was subsequently suspended from practice, was today brought up at Bow street police court on the charge of conspiracy to defraud Dr. Hans Thorsch, a wealthy young physician of Vienna. The sum involved was \$115,000. The magistrate in remanding the accused discussed the case as a "swindle," and imposed the heavy bail of \$50,000.

Alongside Newton in the prisoner's enclosure stood Berkeley Bennett, a land agent, whom the magistrate released bail. A warrant had also been issued in the same connection for a third party who calls himself Count Andor Festetics and says he is a Hungarian nobleman.

Dr. Thorsch said he was induced by the conspirators to part with his money on the pretense that it was to be invested for him in investments of the "wildcat" type.

Bennett, said Dr. Thorsch, posed as "Gordon Bennett" and induced him to advance \$67,500 for a pretended deal in Canadian timber lands "to provide print paper for American newspapers." Later Bennett, scenting danger, told Thorsch that he was a nephew of the newspaper proprietor, to whom he referred as "Dear old Uncle Gordon."

## POLICE USE CLUBS ON STRIKERS IN OHIO

AKRON, O., March 8.—Striking rubber workers clashed with the police today. Bricks were thrown by the strikers and their sympathizers and the police used their clubs with telling effect on the strikers. Two of the strikers were clubbed in the head and one was rushed to a hospital. Leaders of the Industrial Workers of the World say the "I. W. O." reserves will come here and that they will use the same tactics recently employed at Lawrence, Mass., and elsewhere.

Sherry David R. Ferguson, leading a force of deputies, received a broken nose when a brick was hurled by one of the attacking party.

## BALLINGER MAY BE LAND FRAUD WITNESS

CHICAGO, March 8.—Former Secretary of the Interior Richard A. Ballinger may be called as a witness in the trial of Albert C. Frost and four other defendants before Federal Judge Landis for alleged fraud in obtaining Alaska coal claims.

The testimony of the former cabinet official, whose controversy with Gifford Pinchot attracted wide attention, may be required because he is said to have acted in an advisory capacity to Frost and his associates in promulgating the alleged \$10,000,000 Alaska coal land schemes.

Work of impeding a jury to try the case continued today.

## CLEANS THE HAIR AND MAKES IT BEAUTIFUL---25 CENT "DANDERINE"

In a Few Minutes Your Hair Looks Soft, Fluffy, Lustrous  
and Abundant—No Falling Hair or Dandruff.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking the hair of dust, dirt or any excessive oil. In a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life producing properties cause the hair to grow abundantly long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of "Knowledge" Danderine from any drug store or toilet counter and try it as directed. (Advertisement.)

## ARKANSAS GOVERNOR ACTIVE ON LAST DAY

LITTLE ROCK, Ark., March 8.—Governor J. T. Robinson today performed the marriage of his private secretary, commencing the death sentence of a young planter to life imprisonment. He assigned his own commission as United States senator and completed the day's activity by sending his resignation as governor to his brother-in-law, William K. Oldham, president of the state senate, who automatically becomes acting state executive. Mr. Robinson's successor will be chosen at a primary in June.

Mr. Robinson was elected to the senate by the legislature after the death of Senator Jeff Davis, who had been renominated in a primary. Nomination is equivalent to election. The legislature exercised its option of making the selection of calling a primary by naming Mr. Robinson for the place.

The senator-elect will go to Washington next week.

Keeping close track of the Wants means being in touch with chances that are well worth while.

"A queen she looked at the ball that night."

Look at her hair dress—this is the secret of it all. Long-fellow, the wise poet, knew when he said: "Not ten yoke of oxen have the power to draw men like a woman's hair."

## Special Sale of Hair Goods

If you have difficulty matching your hair, come to us. Even if your own hair is plentiful you will need a Switch to give your head the charming contour of a fashionable coiffure, like the illustration shown for instance.

An Importer's Overstock Closed Out to Us at 40 Per Cent Below Regular Cost.

TOMORROW—They go on sale at the same rate of saving to you. At these prices every woman in this city can avail herself of the opportunity to possess an attractive hair dress.
